

# Invitation

„IAIM International Get Together” on the 2<sup>nd</sup> of June 2024 from 1-5 PM London time

Dear IAIM Community,

Today is the day: please receive this warm invitation to our special **IAIM Online Get Together** celebrating our International Day of Nurturing Touch and Respectful Communication!

This GATHERING is for ALL CERTIFIED IAIM & student INSTRUCTORS in the world! And it's for free!

We will have amazing speakers from our Community who will share their expertise!

## ON THAT DAY WE WILL WELCOME:

Dr. Jo-Marie Bothma from IAIM South Africa  
(C.I.M.I.® since 2005 and Chapter Representative)

### **“Parents (moms) and their Temperaments”**

A quick introduction to the 4 main temperament types. Walk away from this talk with some basic temperament-style knowledge and how to use this successfully in your infant massage classes to support different temperament type parent/s (mothers).

Lúcia Paulino from IAIM Portugal  
(C.I.M.I.® since 2006)

### **“In Touch with Contemporary Families”**

The concept of family has changed dramatically throughout history. In each era, the role of marriage, children, and family relationships take on different purposes. However vital, essential, and apparently universal the family institution may be, there is no rigorous definition for it. A psychological lens is used in this presentation to analyze the emerging trends and challenges for today's families.

Federica Martinelli from IAIM Italy  
(C.I.M.I.® since 2005)

### **“Listening to the class” AND “Facilitating the learning in Class and the presence of fathers”**

To support parents in Infant Massage classes by using core elements of the course to enhance the characteristic of each group and of each individual of the group itself by welcoming and listening to the parents, and using non-verbal communication, in the best possible way, so that they can do the same with their children.

Better support fathers in infant massage classes and in the first year of the newborn babies. We encourage the empowerment of fathers as a support of the whole family.

Francesca Gheduzzi from IAIM Italy  
(IAIM International Trainer)  
& Simona De Simone (psychologist)

### **“Special Needs Family Support”**

This workshop focuses on adapting the child's touch, posture, and reading cues in particular situations. Aims are to reflect on the emotional stages that parents can go through and how CIMIs can help them adapt to this new condition and how to respect the whole family in bonding, through learning infant massage and nurturing touch.

## **We will also welcome Vimala in the afternoon!**

*Let's come TOGETHER and strengthen our common roots, nurture each other as this is crucial for our huge world community and so important for our work with families, parents and babies all around the globe. To nurture them needs nurturing ourselves.*

**Make sure to spread the word in your country and save the date!**
